

ELO OXYGEN-RICH DRINKING WATER

www.elowater.com

THE ELO ADVANTAGE

ELO Drinking Water's unique composition and qualities are backed by more than 10 years of water science.

Unlike many types of oxygenated water available in the market, ELO Drinking Water is made without high pressure oxygenation methods. Pure and additive-free, ELO Drinking Water is free from chlorine, fluoride and harmful chemicals.

PROPERTIES OF ELO WATER

ELO Drinking Water is suitable for both healthy and health-challenged people, and has the following properties:

- High oxygen content
- A pH of between 7.1 and 7.5
- Natural minerals
- Refreshing smooth taste
- Preservative-free
- Pure and additive-free

ABOUT ELO DRINKING WATER

ELO Drinking Water is an oxygen-rich water with a refreshing, smooth taste that nourishes the body from within and enhances overall well-being.

The revolutionary technology behind ELO Drinking Water allows a high level of oxygen to exist in a unique, stable and bound form that promotes quick absorption by the body, restoring its natural balance and enhancing overall well-being.
